Professor Penmatsa,

Just a quick note to let you know how much I enjoyed your class last semester. I particularly enjoyed the material covering Intelligent Agents and have a new appreciation for the importance of these elements. Additionally, the detailed assignment feedback you provided throughout the course was of great assistance to help ensure I was always on the correct path.

I have a great amount of respect for your academic and professional credentials. As I continue exploring scholarship and future employment opportunities I was wondering if it would be possible to write a brief letter of recommendation to add to my portfolio?

I realize that writing a letter of recommendation would be a burden on your time so I am extremely grateful for even considering my request.

Sincerely,
Joseph Chandler
